**Why K-cups?**

**Freshness.** A typical pot of drip coffee can go stale and lose freshness in 20 minutes. Then you need to make a whole new pot. In fact, popular coffee chains, such as Starbucks and Tim Horton's, won't keep a pot of drip coffee for longer than 15 minutes. With K-cups, you get a fresh cup every time without having to brew an entire pot.

**Variety.** The K-cup compatible line features hundreds of different brands, flavors, and roasts. No need to clean the machine when changing coffees and no need to brew a whole pot.

**Speed.** It takes between 6 and 12 minutes to brew a pot of coffee in a conventional coffee maker. With a K-cup, the entire process takes just 3 minutes!

**Ease of use.** Simply choose your K-cup flavor, insert the cup into the brewer, and press the button. No measuring and no messy coffee filters. And no chance of a

*Fun City is the authorized foodservice dealer and distributor for Keurig Green Mountain.*

*We offer the widest variety of K-Cup brands and flavors of any supplier in Las Vegas.*
